## SUMMARY

Dedicated and passionate about programming Languages, I specialize in developing both front-end and back-end applications in **React**. Currently working on 3+ front-end projects as a freelance while learning new technologies such as Angular 16 & Next.js. I am excellent at working in cross-functional teams and enjoy collaboration with peers and at this point in my career I am looking to hone my skills and improve my technical abilities. Quick learner with a passion for embracing emerging technologies to deliver user-centric solutions and drive engagement. Excellent problem-solving skills, which allows me to tackle any problem that arises during project implementation.

## TECHNICAL SKILLS

**Programming languages:** HTML, CSS, JavaScript, TypeScript, Java, PHP, Python.

**Libraries and Environment:** Sass, Gsap, Bootstrap, DaisyUI, Tailwind, Express, JQuery, React, Git, GitHub
